

HUMIDIFIERS, DEHUMIDIFIERS AND EVAPORATIVE COOLERS

Humidity Control and Evaporative Cooling

A Comprehensive Service

Condair offers a complete before and after sales service across Denmark and Sweden.

Expert advice and system design

Free guidance on best practise in humidity control, product strategy, selection and sizing.

Installation and commissioning

Delivering the manufacturer's expertise on-site for optimum system set-up.

Nationwide service team

Providing reactive or planned preventative maintenance on all makes and models of humidifier.

Dedicated spares department

Experienced staff help you identify which part you need and get it to you quickly and efficiently.

A COMPREHENSIVE PRODUCT RANGE

Condair offers a complete range of air humidification and dehumidification systems. Being able to select from every available technology allows Condair to closely meet every project's individual needs with the most suitable product.

STEAM HUMIDIFIERS

Condair EL
Electrode boiler humidifier
Easy to install and service, offering 5-160kg/h and ± 5 to $\pm 10\%$ RH control.

Condair RS
Resistive humidifier
No disposable cylinders, offering 5-160kg/h and $\pm 5\%$ RH control or $\pm 2\%$ with RO water.

Condair CP3 Mini
Low capacity electrode humidifier
Up to 4kg/h of steam direct to a room or to an AHU.

Condair RM
Resistive humidifier
Generates clean, mineral-free, sterile steam from 2-8 kg/h to an AHU.

Condair GS
Gas-fired humidifier
Steam humidification with the operating economy of gas, offering 20-270kg/h.

Condair ESCO
Live steam humidifier
Uses a building's existing steam supply, offering 5-2,000kg/h.

Condair SE
Steam-to-steam humidifier
Uses a building's impure steam supply to create pure steam, offering 23-475kg/h.

ADIABATIC HUMIDIFIERS

Condair ME

Evaporative in-duct humidifier

Provides low energy humidification and evaporative cooling, offering 30-1,200kg/h.

Condair DL

Hybrid in-duct humidifier

Close control, spray and evaporative humidifier, offering 4-1,000kg/h and $\pm 4\%$ RH control.

Condair HP

High pressure in-duct humidifier

Spray humidifier delivering humidification to multiple AHUs, offering 2-1,300kg/h.

ML System

High pressure in-room humidifier

Water treatment and pump system with a selection of nozzles capable of multi-zone control.

Draabe NanoFog

High pressure in-room humidifier

Discrete and quiet direct air humidifier, ideal for public places and offices.

Defensor PH

Mobile evaporative humidifier

Suitable for areas up to 900m³ and can be plumbed-in or fed via a water tank.

DEHUMIDIFIERS

Condair DA
Desiccant dehumidifier
Ideal for drying at low temperatures or when low humidity levels are needed.

Condair DC
Condensing dehumidifier
Ideal for drying down to around 50%RH and at temperatures above 15°C.

Condair DP
Swimming pool dehumidifier
A comprehensive range of dehumidifiers for small to large commercial pools.

OTHER PRODUCTS

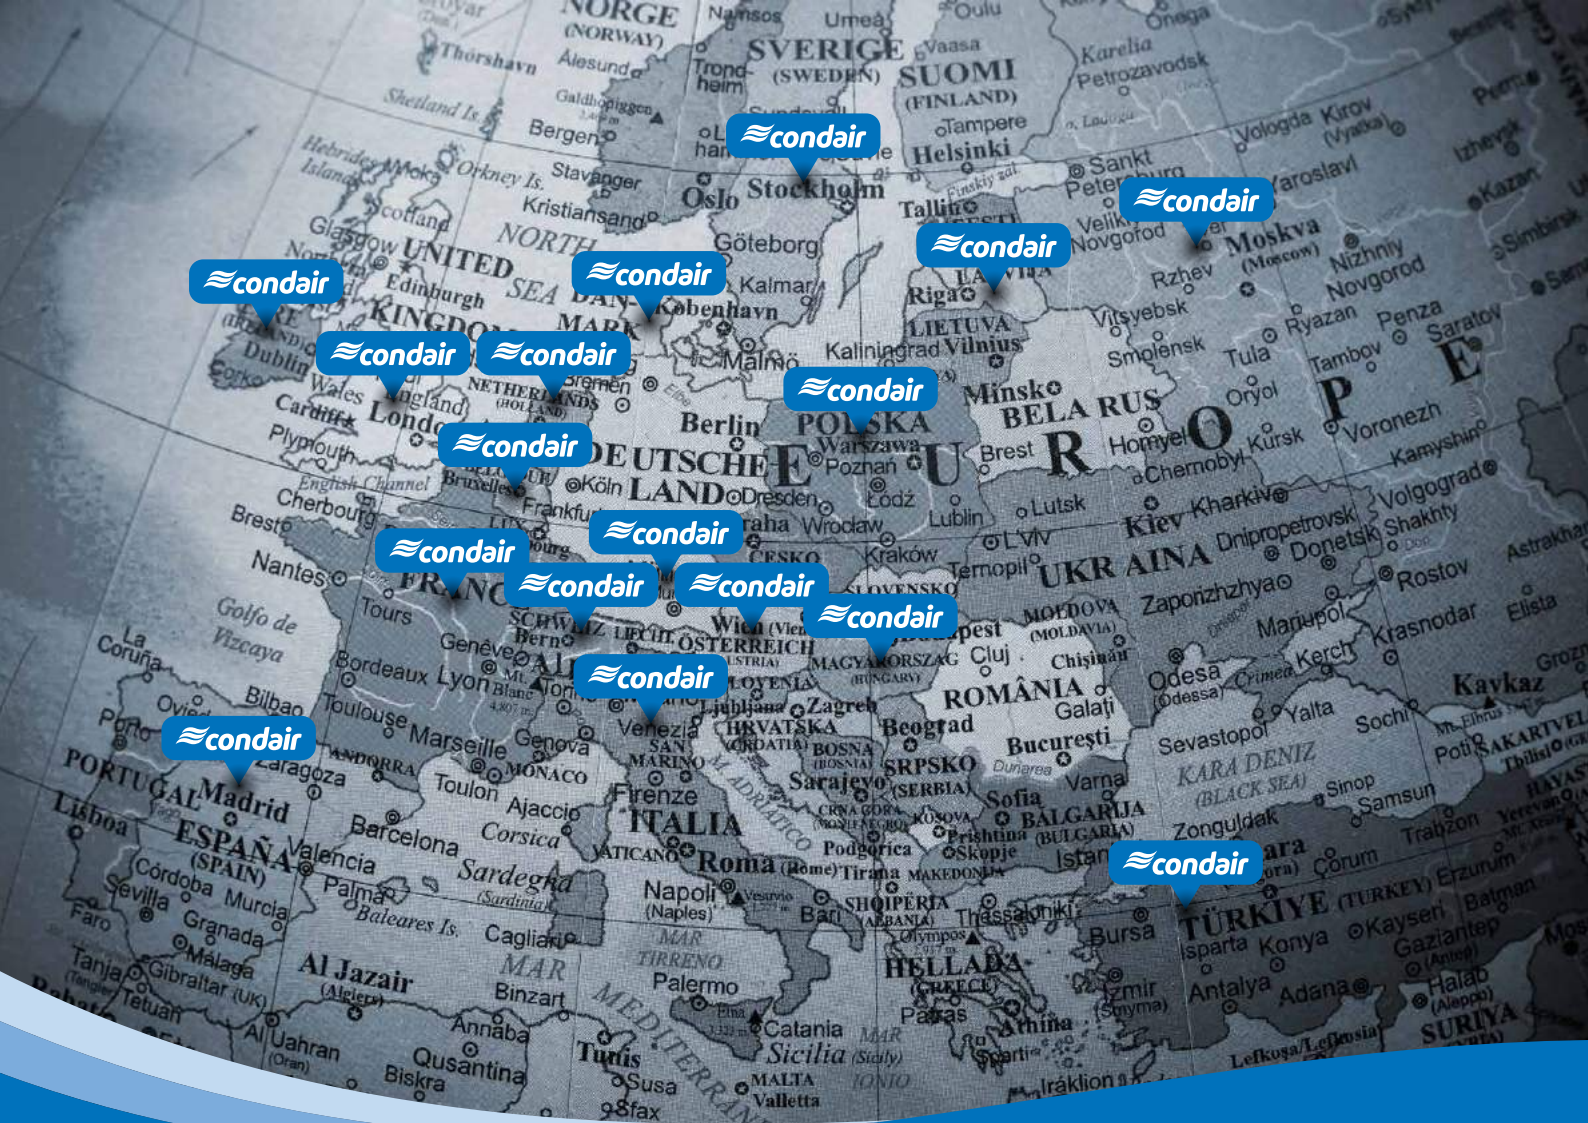

Condair RO
Water treatment system for humidifiers.

Condair OptiSorp
Rapid evaporation steam distribution system.

Controllers and sensors
Control systems based on either %RH or dew point.

Global Expertise, Local Solutions

Condair has manufacturing facilities in Asia, North America and Europe, as well as sales operations in 20 countries and distributors in over 50 more.

The company has been serving global industry and commerce for over 80 years and is highly experienced in creating the ideal environment for improved manufacturing efficiency, human health or preservation.

With continuous investment in product development, Condair maintains the world's most advanced range of humidity control systems. Ongoing product innovation ensures Condair's products offer the lowest possible energy consumption, provide users with low maintenance operation and the highest possible technical performance.
